

October Good News Report

Good afternoon,

Great things are happening in Hart County Schools. We will be in our new building soon; the construction crew is working on finishing touches now. The building is going to be spectacular. Much behind-the-scenes work has also been done this week to have equipment and licensing ready for Green River College and Career Academy next August. It's a great time to be a Raider! Below are some additional positive happenings in our schools:

Bonnieville

PTO officers presented Mr. Jerry Matera with a check for \$840.00 to refurbish the historical sign in the courthouse yard at Munfordville. Bonnieville Elementary took on the project to raise the money needed. Within one week, the student body had raised enough money to have the sign refurbished. PTO officers are Susan Priddy, Sherri Buckles, and Dianne Willis.

Cub Run

Through reading and writing grants and much planning, Cub Run School is now 1 to 1: Chromebook to each student! Cub Run is hosting instructional rounds today.

LeGrande

LeGrande's primary has a mini unit on careers for the coming week. They will have activities and guest speakers throughout the entire week. They are also geared up for our fall festival on Friday, October 19th. The community and parents have been very generous with their donations and work in order to make this event a huge success. LeGrande is extremely proud of the middle school football team and coaches for winning the conference championship. They also had a record number of grandparents with over 500 grandparents visiting throughout the week.

Memorial

Prompted by Memorial's Literacy Plan, they have started DEAR time (Drop Everything and Read); students AND staff are loving it--including the custodians and other support staff!! MES is showing that reading is important to EVERYONE!

Munfordville

Munfordville's middle students are partnering with the local community and the extension office by participating in a Teen Cuisine Cooking class during early release. Due to the popular demand, we have a waiting list to participate. Munfordville students are supporting the high school homecoming and the district by wearing green and orange today. Munfordville's elective period is teaching 21st century life skills, such as financial literacy, mentoring preschoolers, and STEM activities. Students continue to demonstrate #RiseRED through relationships, enthusiasm for each other, and determination to succeed. Munfordville congratulations Mrs. Jennifer Shoulders in her coaching and the superb record of the Hart County Middle School Girls' Basketball team.

Hart County High School

Many students participated during Spirit Week this week by dressing up on various days as follows:

- Wednesday -- Country/Camo Day
- Thursday -- Dress like your favorite Disney character
- Friday -- Construction/Raider Pride

The Raiders are so proud of the Boys' Soccer team for being district runners-up. This is the first time ever for their making an appearance to regionals. Also, Adolescent Literacy Model lessons are increasing student engagement. Dr. Kristin Froedge, Instructional Supervisor, observed an awesome lesson in Mrs. Reed's room this week. Teachers, administrators, staff, and students are very excited about the move to the new building soon.

Have a great weekend,

Nathan
