

Raider Day Information 2019-2020

Hart County School District has been approved to utilize Non-traditional Instruction for the 2019-2020 school year! Not all snow days will be considered Raider Days, so be sure to listen carefully to school closing information.

Your child should have received Raider Day Assignments for 5 days on November 1st. Many teachers provide the option to complete assignments online as well!

Fortunately, we were prepared for the early snow we had this week! Anytime you are notified of a Raider Day, please complete the assignments for that day and return them to the teacher the next school day. If there are consecutive Raider days, your child should complete the next two days assignments and return them to school the following day. It is important that assignments are completed in a timely fashion in order for your child to maintain academic progress and for attendance records.

If you have any questions, please call your child's school or teacher. Thank you for helping us to ensure the success of Raider Days!
